

ADVERTISING FEATURE - REGENCY MEDICAL CENTRE

NEW NAME BUT SAME SERVICE

REGENCY Medical Clinic has been providing the best possible health care to the local community for nearly 80 years.

Nevertheless, the staff and doctors are always sourcing new ways to improve and enhance their services.

With this in mind, Regency Medical will be opening a new branch at 3/74 Prospect Rd, Prospect early in 2017.

The new practice will provide the same high quality care and latest services as the current practices at Sefton Park and Northfield.

All three practices will undergo re-branding to become RMC Sefton Park, RMC Northfield and RMC Prospect, but the commitment to high quality family medicine will remain the same.

RMC has expanded its services to include micro-suction ear wax removal, after hours women's health clinics,

(including nurse-led pap smear clinics, Mirena insertion and removals), iron infusion services and sports injury consultations.

RMC has welcomed Dr William Staridas as a partner in recent months.

Dr Kristen Crowhurst will also be returning to the practice on a permanent basis from February 2017.

Also joining the practice from December is Dr Quang Tran, who will be consulting at the RMC Prospect practice. RMC is fully accredited and continues to thrive due to the quality and devotion of the doctors and the team of staff who support them.

Regency Medical Clinic is a highly regarded training post, and of the 20 doctors at the practice, many were originally trainees who have returned to the practice on a permanent basis. There is a doctor at this practice to meet everyone's needs, whether you need a male or

There is a doctor at the Regency Medical Clinic to meet everyone's needs,

female doctor; or someone who can also consult in Russian, Polish, Croatian, Chinese or Vietnamese.

Daytime, evening and weekend appointments are

available. RMC also offers other services including chronic disease management, Clinpath Laboratories, psychologist, physiotherapist, podiatrist,

dietician, diabetes educator and audiologist. There is also a team of nurses and receptionists who are keen to assist patients in reaching their optimal health.

RMC, 517-519 Regency Rd, Sefton Park, 8269 1900; or 325 Hampstead Rd, Northfield, 8349 8686; new practice opening 2017 at 3/74 Prospect Rd, Prospect
